Corp.

PROGRESSIVE VINYL PRODUCTS

A smart alternative to glass block—  
featuring 5/8" Lexan Thermoclear®

A great alternative to glass block, our Vinyl Security Window is glazed with ribbed GE Lexan Thermoclear for exceptional impact resistance. It will withstand impacts up to 250 times greater than glass, 30 times greater than acrylic. It can withstand repeated sledgehammer blows without breaking or cracking, and is listed as a Burglary-Resistant Glazing by Underwriters Laboratories—the perfect choice wherever security is a concern. It is also available in traditional 5/8" insulated glass.

Stainless steel friction hinges allow you to position the window at any angle to control air flow. This unit can be hinged to open up, down, right or left, making it the perfect multi-purpose, full ventilation window. A total escape window with a completely removable sash is also available.

The Tafco Security Window is well-adapted to residential and commercial, new construction and replacement applications.

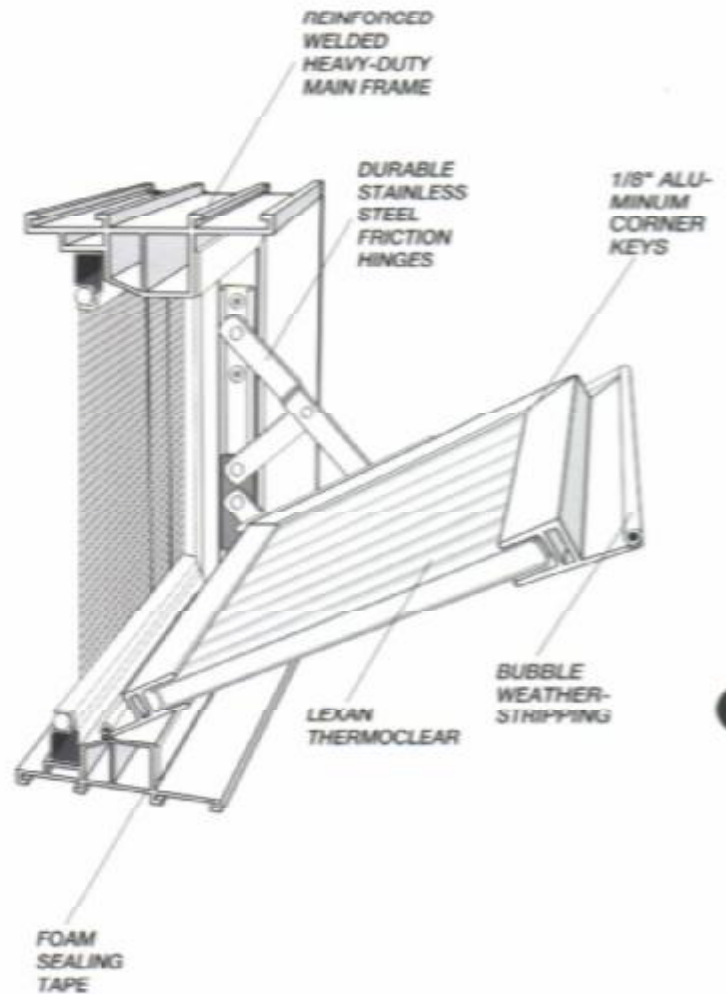

**MADE FROM  
PARTIALLY  
RECYCLED PVC**

**MADE IN THE USA**

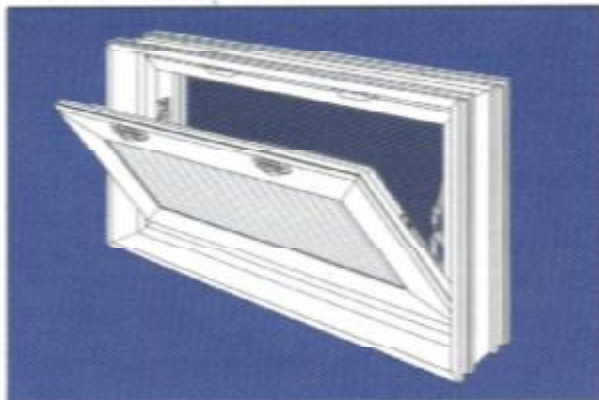

## Tafco Vinyl Security Window can help reduce heating and cooling costs.

### FEATURES

- Glazed with ribbed GE Lexan Thermoclear for impact strength **250 times** greater than glass. It can withstand repeated sledge hammer blows without breaking or cracking, and is listed as a **Burglary-Resistant Glazing** by Underwriters Laboratories. **May also be glazed with 5/8" insulated glass.**
- Our security window insulates better than glass block.
- Our double sealing system, a bubble gasket on the door along with a foam seal on the main frame, insures a weather-tight seal.
- Welded main frame measures 3-1/8" deep for easy installation in a frame (buck), masonry, or glass block opening.
- Stainless steel friction hinges allow you to position door at any angle to control air flow.
- Window can be hinged to open up, down, to the right or to the left—making it truly multi-purpose.
- Available in all sizes.
- Cast zinc sash locks.

**Standard Hinged Window**

**Total Escape Window** (completely removable sash)
